

Opening Ceremony of STULZ China

The management of CSF Group plc was recently invited to attend the opening ceremony of STULZ China, and celebrate the foundation of STULZ China sales company and the expansion of the STULZ Shanghai factory, held on the 9th March 2011.

Since its entry into the China market in 1986, STULZ has developed a strong brand presence in this region with manufacturing base that strictly follows the rigorous German professional standard in producing top high-quality precision air conditioning unit. With over 100 employees in the 6000m² manufacturing base in the district of Shanghai, STULZ China is expected to produce 10,000 units of precision air conditioning systems annually.

Being the sole agent and business partner of STULZ precision air conditioning systems, the management took this opportunity to strengthen and renew business ties with our principle. On this occasion, STULZ held a special product familiarization workshop for guests on new product ranges with the latest technology.
